Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/723,563	Applicant(s) ZLOTOPOLSKI, VLADIMIR M.	
	Examiner Virginia Manoharan	Art Unit 1797	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

A new oath or declaration is required because the oath or declaration is defective. It does not identify the city and either state or foreign country of residence of each inventor. The residence information may be provided on either an application data sheet or supplemental oath or declaration.

The wording of an oath or declaration cannot be amended. If the wording is not correct or if all of the required affirmations have not been made or if it has not been properly subscribed to, a new oath or declaration is required. The new oath or declaration must properly identify the application of which it is to form a part, preferably by application number and filing date in the body of the oath or declaration. See MPEP §§ 602.01 and 602.02.

Claims 1-8 and 10-11 are objected to because of the following reasons:

a). typographical errors, such as : "pours" in step A), section 3), a); "compensate" in step A), section 3), b); and "t" in step B), all recited in claim 10. See also "pours" in claim 2. [Applicant should check the claims and specification of any typographical error(s) which maybe too numerous to mention specifically].

b). In claims 2-8 and 11, lines 1 respectively, the dependency claims should not be capitalized. For example: Claim 1 in Claim 2, line 1, and Claim 3 in Claim 4, line 1.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1797

Claims 1-8 and 10-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- a). The recitation in claim 10, last two lines of "heat transfer system to transfer heat energy produced in said reactor to said reactor to provide heat to supplement said solar heat" provides for ambiguity especially with the recitation of "produced in said reactor to said reactor".
- b). The step of "treating the condensate produced in said solar still a water treatment unit t reduce deuterium concentration recited in claim 10, step B) is vague and confusing.
- c). The claimed "said black pan positioned on the sea" in claim 2 lacks proper antecedent basis for support as it is not initially recited in the base claim. See also claim 10.
- d). The inconsistent used of terminology in the claims is improper. For example: "to produce heat" in claim 1, B), 3), as opposed to "heat energy produced" in claim 1, B), 4). See also claim 10.
- e). Claim 10 recites more features of elements in an apparatus claim rather than process steps to which the claims are directed. Active, manipulative steps should be recited, e.g., filtering, electrolyzing and etc.

Claims 1-8 and 10-11 are allowable over the prior art of record.
